THIS MONTH

Global equity markets continued to deliver positive returns in July, despite a resurgence of Covid-19 cases in several countries. At the same time, prices of US Treasuries and Gold also neared all-time highs.

Governments continued to offer significant stimulus to support markets. A landmark agreement was reached with the “EU recovery fund”; which should eventually lead to the issuance of EU wide backed bonds, signalling a greater level of EU integration than before, a positive for the Euro and Euro denominated assets. The recovery plan is encouraging for impact investors given the package’s focus on “green” policies, with grants and loans available specifically for energy efficient housing, circular economy and renewable energy, to be funded in part by higher taxes on carbon.

Geopolitical tensions remained, most notably between China and the USA.

IMPACT ALLOCATION

The UN Sustainable Development Goals (SDGs) are the blueprint to achieve a better and more sustainable future for all. To help translate the Goals into the SIMPS PORTFOLIOS we have aggregated them into our four Impact Themes.

THE GREY SECTION OF THE GRAPH MAKES UP 13% OF THE SIMPS HIGH RISK PORTFOLIO. THIS REPRESENTS CASH & FUNDS THAT CAN'T BE ATTRIBUTED TO ONLY ONE SDG.

We harness the interconnectivity of the Goals to create the SIMPS PORTFOLIOS. **Tribe Theme 1** focuses on the boundaries that Nature sets; the ecological ceiling or planetary boundary. **Tribe Theme 2** focuses on the social fabric needed to ensure everyone thrives; the social foundation. **Tribe Theme 3** focuses on the economic and physical infrastructure needed to deliver **Tribe Theme 2** whilst respecting **Tribe Theme 1**; the fabric for delivery of the goals. **Tribe Theme 4** focuses on the political, cultural and legal systems and behaviours needed to drive the change required; the behavioural shift needed to succeed.
